

ORGINOR NATURAL is a company dedicated to the production and marketing of dehydrated products, natural extracts and colorants, and powder-based food mix products. We are committed to:

1. Ensuring sanitary quality, safety, legality and authenticity in the manufacture of our products by complying with legal, regulatory and customer requirements, to guarantee customer satisfaction with high quality products and services.
2. Maintaining a quality and safety management system in our organization through a process-based and risk-based approach, contributing to food safety and continuous improvement of the management system, in accordance with the FSSC 22000 scheme.
3. Ensuring the competence of our employees through continuous training and awareness.
4. Maintain our commitment to designing and developing products that are solutions for the new needs of the market.
5. Promote effective internal and external communication with clients, suppliers and competent authorities regarding food quality and safety.
